

Smart Regulation: Can New Types of Governance Improve Health?

An Interdisciplinary Symposium

The symposium will examine how new forms of regulation and governance affect prospects for health systems change and improvement. New governance includes a wide variety of processes but all differ from top-down, command and control style regulation. Recent examples of new governance in action include public-private partnerships in electronic record adoption, public disclosure of hospital infection rates in Europe, standardized metrics for cancer treatment, and private rulemaking in organ transplantation. These innovations feature a participatory model of regulation in which multiple stakeholders collaborate to achieve a common purpose.

Scholars from the United States and the European Union in the fields of health services research, clinical medicine, political science, public affairs, law and social work will present and comment on papers addressing the prospects for new forms of governance in many areas of the health system.

Friday, October 9, 2009
8:00 a.m – 4:30 p.m.
University of Wisconsin-Madison
Health Sciences Learning Center
Room 1345

The symposium is open to UW faculty, staff, students, and the public. No registration is required. Its aim is to promote dialogue among researchers focused on clinical and translational research and researchers focused on the system-level structures and policies that facilitate or inhibit health system improvement and population health.

This event is approved for nine Continuing Legal Education Credits.

Sponsors

UW School of Medicine and Public Health, including the Wisconsin Partnership Program and Population Health Institute; UW-Madison Center for European Studies; UW-Madison European Union Center for Excellence; UW-Madison Wisconsin Center for World Affairs and the Global Economy; and the Health Law Section of the State Bar of Wisconsin.

Also assisting from UW-Madison are the La Follette School of Public Affairs; Law School Global Legal Studies Center; Institute for Clinical and Translational Research; Health Innovation Program; and Carbone Comprehensive Cancer Center.

AGENDA

8:00 -- Registration and Coffee

8:30 -- Introduction and Welcome

Professor Carolyn Heinrich, Director, UW La Follette School of Public Affairs
Professor Pat Remington, Associate Dean for Public Health at UW School of Medicine and Public Health

8:40 -- New Institutions for Governance: Can They Integrate Systematic Evidence, Tacit Knowledge of Clinicians, and Trust of Patients?

Is traditional regulation a muddle of confusing rules that prevent innovation, provide no useful guidance, and impede reform? The panelists discuss the limits of the prevailing policy tools in the US and EU.

Moderator: Professor Tom Oliver, Population Health Sciences, UW School of Medicine and Public Health

Professor Peter Jacobson, University of Michigan School of Public Health

Professor Scott Greer, University of Michigan School of Public Health

Commentator: Professor Susan Yackee, La Follette School of Public Affairs

9:45 -- New Institutions for Governance

Emerging institutions may provide alternatives to improve health care outcomes. The panelists discuss this through **informatics**, **quality improvement**, and **private/public rulemaking**. How do health care professionals, government officials and the public interact in these new governance institutions? And how do various modes of interaction enhance or diminish trust among health care professionals and their commitment to improvement?

Informatics

Moderator: Professor David Weimer, La Follette School of Public Affairs

Professor Nicolas Terry, Saint Louis University School of Law

Dr. Maya Das, National Opinion Research Center, Washington, D.C.

Discussant: Professor Patricia Brennan, UW School of Engineering, School of Nursing

10:45 -- Break

11:00 -- Quality Improvement Institutions from Both Sides of the Atlantic: The National Quality Forum and the National Institute for Clinical Excellence

Moderator: Professor Louise G. Trubek, Clinical Professor of Law Emerita and Public Health Program of UW School of Medicine and Public Health

Professor Bryce Hoflund, University of Nebraska-Omaha School of Public Administration

Professor Stirling Bryan, University of British Columbia and University of Birmingham

Discussants: Chris Queram, Wisconsin Collaborative for Healthcare Quality, and Dr. Sally Kraft, University of Wisconsin Medical Foundation

12:00 -- Private Rulemaking: An Alternative to Bureaucratic Rulemaking

Professor David Weimer, La Follette School, “Governance of Organ Transplantation”
Discussant: Professor Nilo Edwards, UW School of Medicine and Public Health

12:45 -- Lunch

1:30 -- Smarter Governance in Practice: Disease-Based Case Studies

How, in theory and in practice, do alternative forms of regulation work in the health system? These alternatives, including private rulemaking, management-based regulation (incentives), and traditional rules and enforcement, will be examined in the areas of prevention and control of **hospital-based infections** and the **fight against cancer**. What is the influence of new forms of participation—including patient networks, patient self-management, and consumer access to medical information—on health system change with particular attention to the fight against cancer?

Combating Hospital-Based Infections

Moderator: Gordon Ridley, Senior Associate Dean of Administration for UW School of Medicine and Public Health

Professor Cary Coglianese, University of Pennsylvania Law School

Commentator: Professor Nasia Safdar, UW School of Medicine and Public Health

2:30 -- The New Campaign Against Cancer from Both Sides of the Atlantic: Entrepreneurs, Networks, and Public Data

Moderator: Dr. Howard Bailey, Wisconsin Network for Health Research

Professor Louise Trubek, UW Law School

Professor Thomas Oliver UW School of Medicine and Public Health

Professor Toby Campbell, UW School of Medicine and Public Health

Researchers Chih-Ming Liang and Matt Mokrohisky

Commentator: Professor Tracy Schroepfer, UW School of Social Work

3:30-- Break

3:45 -- Smarter Governance in Practice in the US and EU: Can It Work?

How are health system innovations introduced and promoted in different settings? What is the range of policy developments available in both the US and EU?

Moderator: Barbara Zabawa, attorney, Whyte Hirschboeck Dudek, and Adjunct UW Law School

Commentators: Rita Baeten, researcher, Observatoire Social Européen, and Professor Donald Moynihan, La Follette School,

4:30-- Adjourn

Symposium Organizers and Editors

Professor Thomas Oliver, Population Health Sciences, UW School of Medicine and Public Health;
Professor Louise Trubek, UW School of Medicine and Public Health and Clinical Professor Emerita, UW Law School; Professor David Weimer, Department of Political Science and La Follette School of Public Affairs
